# PROGRAM OVERVIEW

The Re-Imagine Education Teacher Learning Center program is an effort to reimagine the current system of education by establishing centers at the teacher training institute with a student-centered learning approach and making the learners of today, teachers of tomorrow by equipping them with 21st-century skills.

Innovations in pre-service teacher education are the unexplored levers of change that can drastically improve the quality of our education system in the long run. Since we want our next generation to be equipped with 21st-century skills, it is essential that our teachers are prepared to teach in this new education paradigm. This program focuses on building foundational skills which form the basis of higher-order 21st-century skills like critical thinking, problem-solving, digital fluency, empathy, and collaboration.
