FEEL THE POWER OF QUALITY EDUCATION

FROM THE DESK OF
CHAIRMAN

Education is the foundation upon which we build our future.

— Christine Grégoire

Every citizen of this country has the fundamental right to be educated.

Standing at the threshold of the new academic session, we, at Biyani Group of Colleges, renew our commitment to the spirit of sharing knowledge and grooming new talents.

The institution trains young managers with an ethical and social vision. We firmly believe that corporate managers must be socially sensitive, true to their values and enterprising enough to deviate from the beaten track.

The institution ensures that students are motivated and trained to become job-creators. We have a team of highly qualified teachers and trainers who wholeheartedly make efforts to create a conducive learning environment at our serene campuses in Vidhyadhar Nagar, Champapura and Kalwar.

The world of management is undergoing tremendous transformation. With globalisation, new business opportunities are opening up. Management students can now seek careers in diverse domains – some traditional, some modern. Numerous students still opt for traditional career options like marketing, finance and HR in sectors like manufacturing, retail, telecom and pharmaceuticals. Simultaneously, students are also looking for career options in media, fashion designing, education, training & languages. Upcoming youths are more enterprising and adventurous.

The institution looks into the interests of such diverse groups of students and motivates them to fulfill their dreams. We have introduced Japanese, German & French language studies in the curriculum to help students secure jobs globally.

The institution has achieved a milestone through continuous research projects undertaken in association with Japanese universities. All credit for this goes to untiring efforts of Dr. Manish Biyani & his team.

We are making sincere efforts for creating a history in the field of education by establishing Biyani University in the upcoming session.

In our march towards excellence, we look forward to your support. We welcome you to the Biyani Group of Colleges – A place where you can trust.

FEEL THE POWER OF TRUTH

FROM THE DESK OF
DIRECTOR (ACADEMICS)

*B*rimming with hope and dreams of scaling new heights, we are stepping into this new academic year. I wish that you remain focused on your academic and career goals and forge ahead on the path of success and glory.

The Biyani Group of Colleges believes in empowering youths by making them realise their hidden potential and developing their personalities.

A great responsibility is vested on us as educators of the modern world. We aim at imparting quality education with practical knowledge to enhance the employability of students.

Simultaneously, we instill in them values that shape their attitude, outlook and conduct, thereby laying a strong foundation for them to tackle the challenges of life. Our life skills training programme 'OORJA' goes a long way in achieving this.

All our three campuses in the city are equipped with modern facilities. Our infrastructure reflects our commitment to offer nothing but the best to the young, aspiring youths looking to make a mark in the ever-changing competitive world. But infrastructure alone is not enough. The most valuable asset of any academic institution is its faculty. We take immense pride in our highly competent and qualified faculty. Together, we aim at making the young minds self-motivated, disciplined, confident and morally upright by blending modernity with traditional values.

The academic session 2020-2021 will be what we decide to make it. Let's focus on all that is good and right in the world: Truth, knowledge, learning, choice, faith, family, and so much more. We have the power to change the world through the key of education.

I welcome you to the vistas of Biyani Group of Colleges.

FEEL THE POWER OF TECHNOLOGY

FROM THE DESK OF DIRECTOR (R&D)

The Biyani Group of Colleges is an entrance to the scholarly activity. At the Biyani Research Group, we promote research activities aimed at improving the daily life of the common man. So we shoulder dual responsibilities of rendering academic aspirations ('Science for Knowledge') and scientific careers ('Science for Society').

The research activities are encouraged through our unique India-Japan exchange programmes that involve an integration of academic excellence, professional learning and research-based development. These programmes provide our students with an opportunity to visit and study in Japan. Our India-Japan exchange programmes are immensely popular. They are recognized by both the countries. Recently, we received the Certificate of Commendation from the Ministry of Foreign Affairs of Japan. Our institution has been empanelled as the Sending Organization for Japan's Technical Intern Training Programme from the Ministry of Skill Development & Entrepreneurship of India.

It is our collective efforts that make this college such a vibrant place to learn, work, explore and move ahead with a scientific vision. However, we must always remember that our life does not get better by chance (what we create) but by change (what a student will make).

I welcome you to Biyani Group of Colleges where students are able to gain knowledge and advanced skills in their specialised fields, following which they can fulfil their aspirations for a growing career.

Motto of our institute is to make I-D-L to become "IDEAL"

'I' letter teaches how to bring a quality IDEA (the skill of creativity)

'D' letter teaches how to generate new DATA or information using the idea (the skill of invention)

'L' letter teaches the LANGUAGE to describe data and transform the idea to the needful society (the skill of innovation)

"True knowledge comes with right attitude and perseverance."

— Ms. Priyanka Biyani
Assistant Director (Education)

FROM THE DESK OF ASSISTANT DIRECTOR

*T*he Biyani Group of Colleges is taking big strides in the field of education, especially for girls. It is said: "If you teach a boy, you educate an individual; but if you teach a girl, you educate a community."

For over two decades, we have been working with the mission of women empowerment through professional education. And today, we are ranked among the most prestigious institutions of north India. We thank all our students, parents, alumni, teachers and industry partners for helping us reach here.

However, there is a long way to go and we are sure that with the active cooperation of all our stakeholders, we will be able to scale newer heights.

Our existing departments of Arts, Commerce & Management, Science, IT, Education, Law and Nursing continue to provide competent manpower to the society. Realising the need of the hour, we have partnered with the newly established Rajasthan ILD Skills University (RISU) to introduce skill courses in journalism and fashion designing.

The excellence in teaching and research comes from the careful choice of faculty members, in which we have never compromised.

Besides, research & development collaborations are not an additional feather in our cap, but an integral part of our growth strategy.

Come and be a part of our growth story!
